Architectural Design

Sunny Mishra

Senior Developer | Storyteller
Bengaluru

Summary

An Engineer by qualification, a Software Developer by profession and a Storyteller by passion. I have more than a decade worth of work experience in Backend engineering and system design.

I am not using LinkedIn to find a job. Since 2018 my mission on the LinkedIn platform is to connect with junior Engineers and guide and mentor them to become more employable and productive at work. This involves one - to - one guidance over chat and publishing daily posts. These Daily LinkedIn posts contain a piece of advice or productivity ideas for software engineers, in the form of a story.

Experience

Envestnet | Yodlee India

Senior Member of Technical Staff

May 2016 - Present (4 years 4 months)

Bangalore

- Individual contributor and responsible for customer facing product modules.
- Rewrote several APIs for launch of flagship product PFM (Personal Finance Manager).
