Priyanka Kasture

Founder - Machine Learning India

Pune

Summary

Entrepreneurial, data-driven social media marketing strategist with an excellent understanding of creation, management and monetization of large online consumer-communities.

I am also the founder of Machine Learning India, India's leading social media driven machine learning community with over 300,000 members.

I am obsessed with customers, with quality, and I love to apply consumer-psychology methods and practices to marketing and branding.

I specialize in: Content marketing, social media analytics, online brand strategy, business story-telling, consumer-psychology, online community management, influencer and affiliate marketing.

Speaking Engagements: PICT, Vishwakarma IoT, Sinhgad COE and Cummins COE, TomTom India, Securly Software, Globant India and GS Labs.

Get in touch with me on: pkasture2010@gmail.com.

Experience

Machine Learning India

2 years 6 months

Content Strategist

April 2018 - Present (2 years 5 months)

Pune, Maharashtra

- Single handedly created and successfully monetizing Machine Learning India, India's biggest, social-media driven, AI and ML community, with over 300,000 members.

- Hacked the growth of the online-community, resulting in the addition of 25,000 - 30,000 new members to the community, every month.
- Generating content marketing strategies that are resulting in a cumulative reach of 5,50,000 to 6,00,000, distinct people per week.
- Creating appealing design assets to construct a strong brand-image in the minds of the members of the community.
- Collaborating with various content creators, researchers and influential personalities in the AI/ML niche to boost the growth of the community on all platforms.

Founder

March 2018 - Present (2 years 6 months)

Pune, Maharashtra, India

Machine Learning India (MLI), is a thriving community of 300,000 ardent - artificial intelligence enthusiasts across India and the globe. The goal of MLI is to reduce the skill-gap in India, by creating a vibrant AI ecosystem and talent pool; thereby leading our country to have a significant take in the global AI revolution. To pursue the same, MLI intends to democratize quality technical education and make it available to all.

MLI is present on Instagram, Telegram, LinkedIn, Twitter and YouTube.
